## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 11-15, drawn to a method for prevention or treatment of diseases or conditions associated with angiogenesis in need of such treatment.
  - II. Claims 16-18, drawn to a method of inhibiting angiogenesis.

Inventions I and II are distinct, each from the other because Group I invention can be practiced with another materially different products (i.e., thalidomide, retinoic acid, paclitaxel, COX-2 inhibitor, EM-138, etc...) and different functions (i.e., activating kinase, inhibiting neurokin, etc...).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

- 2 Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
